#12 Straight Saw Scabbards

Protect the teeth of smaller straight saws with these quality-constructed scabbards

- Available in top grain steer hide harness leather or black rubberized belting, these scabbards are lockstitched and riveted.
- The leather style features a pruner pouch that accommodates pruners 8" and smaller.
- The pruner pouch is lockstitched and riveted separately and then attached to the scabbard by a copper rivet at the top and a nickel plated rivet at the bottom.
- A 3/8" nylon washer at blade entry point protects saw teeth and scabbard from wear.
- Attach to work belt or saddle quickly and easily with a nickel plated dee on the back.
- Large, convenient openings on side and bottom for easy cleanout.
- The scabbards will protect the Fanno #F1-1214, Felco #F-61 and similar straight saws. The pruner pouch holds a wide range of pruners.
